

**ACCEPTANCE CRITERIA FOR THE DISPOSAL OF
CONTAMINATED SOIL
AT THE CITY OF SAN DIEGO MIRAMAR LANDFILL**

Miramar Landfill **DOES NOT** accept contaminated soil classified as hazardous waste or designated waste. Hazardous waste is defined in California Code of Regulations, Title 22, Division 4.5, Chapter 11, Article 1, Section 66261.3. Designated waste is defined in California Code of Regulations, Title 27, Division 2, Subdivision 1, Chapter 3, Subchapter 2, Article 2, Section 20210.

Miramar Landfill may accept non-hazardous contaminated soil generated within San Diego city limits, and from other designated jurisdictions. The City of San Diego reserves the right to refuse to accept contaminated soil due to landfill operational restrictions or capacity limitations.

Contaminated soil is accepted at the Miramar Landfill in accordance with the following requirements.

1. The generator will submit documentation to support the waste determination including a description of the sampling strategy and protocol followed, a copy of all laboratory analysis from a California State Certified Laboratory, and a copy of the Chain of Custody. Sampling and analysis must be in accordance with the procedures specified in California Code of Regulations, Title 22, Division 4.5, Chapter 11, Article 3, Section 66261.20(c).
2. The contaminants in the soil must be less than the maximum contaminant levels established by the San Diego Regional Water Quality Control Board in Addendum No. 1 to Order No. 93-86, Waste Discharge Requirements for Soils Containing Nonhazardous Constituents of Petroleum Hydrocarbons, Organic and Inorganic Compounds, Metals, and Pesticides.
3. The contaminants in the soil must be less than the following maximum contaminant levels established by the Miramar Landfill:

Contaminant	Maximum Concentration
Gasoline and lighter chain hydrocarbons (C ₄ -C ₁₂)	100 mg/kg TPH
Diesel fuel and medium chain hydrocarbons (C ₈ -C ₂₂)	1,000 mg/kg TPH
Waste oil and heavier chain hydrocarbons (C ₈ -C ₄₀)	2,000 mg/kg TRPH
Lead	350 mg/kg TTLC
Polychlorinated biphenyls (PCBs)	Non-detect

4. The generator will submit a completed Special Waste Disposal Request signed by the generator or agent, which shall be delivered to the Miramar Landfill's Hazardous Substances Enforcement Team a minimum of two (2) working days prior to the requested disposal date.
5. The original documents shall be delivered a minimum of two (2) working days prior to scheduling disposal. The documents may be delivered to the Miramar Landfill or mailed to the following address:

**CITY OF SAN DIEGO
ENVIRONMENTAL SERVICES DEPARTMENT
ATTENTION: HAZARDOUS SUBSTANCES ENFORCEMENT TEAM
9601 RIDGEHAVEN COURT, SUITE 310
SAN DIEGO, CA 92123-1636**

**PHONE: (858) 573-1415
FAX NUMBER: (858) 278-2330**

6. Approved waste is only accepted Monday through Friday, excluding designated holidays, between the hours of 7:00 a.m. and 2:00 p.m.
7. An appointment for disposal shall be made with an Inspector from the Hazardous Substances Enforcement Team (858-573-1415) no later than 9:00 a.m. the day prior to disposal. There will be no exceptions to this scheduling requirement.
8. A Special Waste Manifest shall be completed for each load and will accompany the load at the time of disposal.
9. Special Waste Disposal Requests, Special Waste Manifests and information regarding the fees are available from the Supervising Disposal Site Representative (858-492-6100). The following information shall be provided when obtaining a manifest: generator's name and address, contact person and telephone number, waste description and quantity, and consultant's name and telephone number.
